KALIPLARI

PVC
EXTRUSION
MOULDS

- Üstün profil yüzey kalitesi - *Perfect profile surface quality*
- Maksimum verim - *Maximum output*
- Kusursuz profil geometrisi - *Correct profil geometry*
- Minimum fire - *Minumum wastage*
- Kısa süreli devreye alma - *Shorter operation start up time*
- Kolay kullanım - *Easy to use*

- Profil sistem çizimi - *Profil system drawing*
- Fabrika yerleşim planı - *Factory layout plan*
- Proses desteği - *Process support*
- Sistem danışmanlığı - *System consulting*
- Anahtar teslim danışmanlığı - *Turnkey consulting*

**ULUSLARARASI PLATFORMDA YURTIÇI VE
YURTDIŞI HİZMET DESTEĞİ...**

*WE PRESENT SERVICE SUPPORT FOR LOCAL AND
FOREIGN CUSTOMERS IN INTERNATIONAL PLATFORM...*

SICAK KALIP HOT MOULD

- Kalıp çekirdek ve destek plakası bütün
Die core and support plate as whole
- Yüksek sertlikte kalıp pimi
High hardness mold pins
- Standart ısıtıcı
Standard heater

- Üretimimizin her aşamasında ileri teknoloji ve kaliteye büyük önem vermekteyiz. Üretimimiz en yeni yöntem ve makinalar kullanılarak yapılmaktadır.
We consider important for high technology & quality in all our manufacturing phases. We use the newest systems and machines in our manufacturing.

KURU KALİBRELER DRY CALİBERS

- Optimizasyon tasarlanmış kalibratör. Su ve vakum delikleri, yüksek hızlarda şekillendirme yeteneği sağlar.
Optimization designer calibrator water and vacuum holes, provides the ability to shape at high speeds.

- Nitelik ve fiziksel özellikleri bakımından ürünün kullanıcısına sağlayacağı potansiyel fayda temel alınmıştır.
Basic principle of product is to provide potential benefit by characteristic and physical special feature to the user.

VAKUM TANK VACUUM TANK

- ▶ Paslanmaya karşı dayanıklı standart vakum tankları
Corrosion resistant standart vacuum tanks
- ▶ Standart değiştirilebilir plakalar.
Standard replaceable plates
